

iCATsystem **light**

The ideal system with test module position detection for manufacturers of small cable harnesses

iCATsystem light facilitates the testing of small specimen with the proven range of functions and excellent simple use with our software

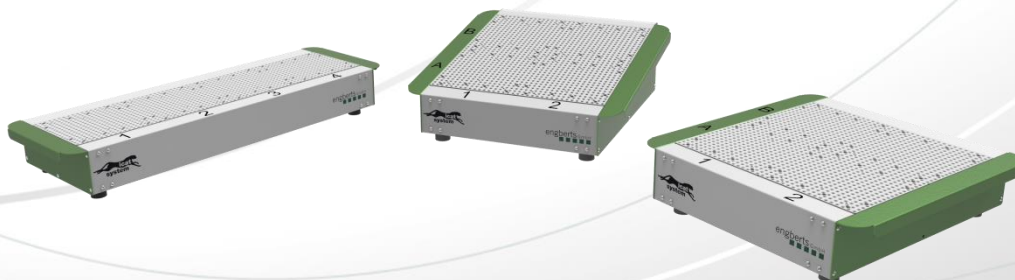

With its compact design the iCATsystem light is mobile and can be set up and used virtually everywhere without requiring a lot of space

Sample setup with 4 test box modules, 2 with universal housing adapters, 1 with quick-change connector and 1 control module P

Thanks to the customer-oriented development of the iCATsystem **light** all existing types of test modules can be used. The test modules of der iCATsystem-product family can be exchanged without any problems.

The system is available in three different designs: as a flatbed housing, (2x2 or 1x4 module adapters) or as a desk-type housing (2x2 module adapters)

Feel free to contact our technical sales director Mr. Ulf Hachmeister for any questions you may have; he will be pleased to assist you. Phone: +49 4405 9268-14; E-Mail: Ulf.Hachmeister@engberts.de
