

iCATsystem **direct**

The smart test system for conventional testing with the sought-after advantages of the iCATsystem world.

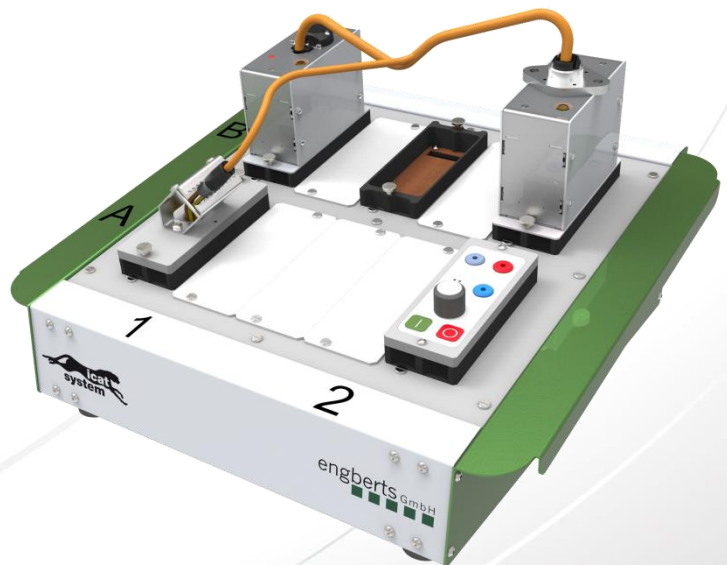

iCATsystem **direct** creates the link between familiar working methods and the excellent easy operation of our software

The following features of the iCATsystem product family are included in the iCATsystem **direct**:

- Upgrade the number of existing test points (128);
- Optional connection with external test setups (e.g. test boards, test modules, etc.); or
- Direct use of iCAT-contacting options (e.g. [quick-change connector](#), universal housing adapter, etc.)
- Use of the entire software package

Sample setup with 5 test box modules, 2 with universal housing adapters, 1 with quick-change connector and 1 control module P
